

continuing the dream

Join young people from around the metropolitan area for a lively celebration of the life of Dr. King as we consider the future of our country under the leadership of President-elect Barack Obama. Hear from local youth as they create their own message to our new president. Letters to the President-elect will be a focus of the dynamic, joyful, soulful afternoon. Join in and write your own message to the president.

In this, the forty-first anniversary of Dr. King's untimely death, join us at the site of his last Sunday sermon. Led by multi-media artist and educator Bomani Armah.
